That man is great, and he alone,
Who serves a greatness not his
own,
For neither praise nor self;
Content to know and be un-
known;
Whole in himself.
—Owen Meredith.

THE SHOWS

The Gem presented an extra good program when they flashed "Who Pays" on the screen. This serial deals with the vital questions of life and is one of the most instructive on the film market, ket.

BIRTHDAY PARTY

Raymond Francis Felts entertained quite a number of his friends at his home on East Second street, Saturday afternoon from three to five, in honor of his sixth birthday. Music and games were in order and delicious refreshments were served. He received many useful and pretty presents, and his guests almost forty in number, left after a most pleasant afternoon, wishing him many more happy birthdays.

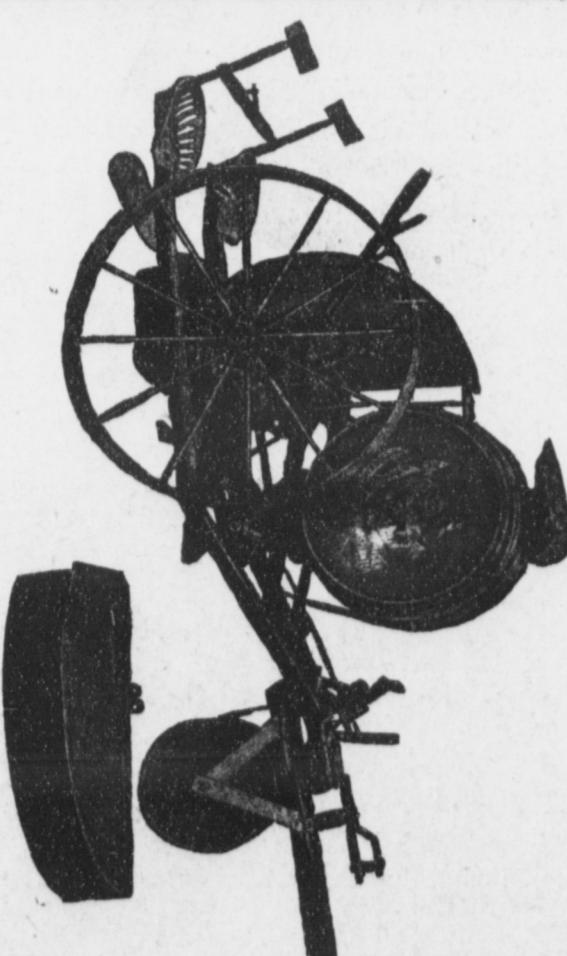

Goes to Annapolis

Mr. John N. Browning, son of Mr. and Mrs. S. P. Browning, of this city has left for Annapolis, Maryland, to take the physical examination for entrance to the United States Naval Academy. Mr. Browning has passed the mental examination, and stands every chance of passing the physical one also. His father, Mr. S. P. Browning, of this city, accompanied him to Annapolis.

WONDER WHO IT IS

A prominent Second street business man, and a well known business lady of this city, will be united in marriage in the next few days. Their marriage will prove a big surprise to their many friends.

Two nice front offices for rent in O'Keefe building.

Say, farmer folks, it's worth your while to turn the paper sidewise to see the picture of the "New" Tiger Tobacco Sætter. It's a wonder, Chuck full of new improvements, and the best tobacco transplanter on the market today. Drop in and let's talk it over.

MIKE BROWN, The Square Deal Man.

M'DERMOTT SPEAKS TO LARGE CROWD

Lieut.-Gov. McDermott delivered a speech to a large crowd of the Democratic voters of this county, at the Court House, Monday afternoon. After a brief introductory speech by Chairman A. G. Sulser, of the Democratic County Committee, Mr. McDermott delivered a speech that stated in plain words, that his platform was against state wide prohibition from a taxpayers point of view. His speech was well applauded and many of the dyed in the wool prohibitionists joined in the applause.

Mr. McDermott is a pleasing speaker and he held the undivided attention of his audience.

SMASHED AEROPLANE SHIP ED TO CHICAGO

Aviator Alvin C. Wilson, whose machine fell Sunday while giving a flying exhibition at League Park here, shipped the damaged plane to Chicago on Monday. While the engine was not injured, Aviator Wilson says it will take over \$700.00 to repair the machine for another flight. The accident Sunday was the narrowest escape Wilson has ever had, and many who saw him fall, declare that he was born with a horseshoe about his neck.

POLICE COURT

Amanda Dempsey, a lady of color, was fined \$10.50 for street walking. Amanda was arrested Saturday night by Chief of Police Mackey, who says that he will continue to drag the streets for persons of questionable character until he rids Maysville of the pests. He says it would be advisable for such persons to beat a hasty retreat when they see an officer coming and to remain indoors after 9 o'clock, as he has given special orders to arrest people who are roaming the streets, seemingly with nothing to do.

ACCEPTS POSITION

Mr. Robert B. Owens, of this city, left Monday morning for Lexington to accept a position with the Van Deering Hardware Co., of that city. Mr. Owens is a well known hardware man having been in that business in this city for a number of years, and the Van Deering Co. did well in obtaining his services, for he knows the hardware business from A to Z. The Ledger wishes Mr. Owens success in his new undertaking.

Mr. John Kilgore, of this city, was operated upon at Wilson Hospital Sunday by Drs. Reed and Skinner of Cincinnati. He is resting easily this morning.

COMMERCIAL COURSE

Popular—Necessitates Change of Teachers in High School.

From the many favorable expressions, we are anticipating a great many of our High School students to elect commercial studies as a part of their regular High School course the ensuing year. The commercial teacher will take the place of the extra teacher, Miss Inez Luten, who was employed last year to relieve the over-crowded classes. Miss Luten has done efficient work for us, and we regret losing her, but the change to commercial work necessitates the employment of a teacher especially equipped along commercial lines.

CIRCUIT COURT

J. H. Hawkins, through his attorneys, filed suit against The Bates-Rogers Construction Company, who are building the Lock Dam No. 33, above this city, for damages amounting to \$3,000, resulting from injuries sustained while at work on the dam. It will be remembered that Hawkins is the man who was hit by a crow bar on May 21 and badly hurt.

WORRIED BY DOPE FIEND

The police officials were notified early this morning that a supposed doper was bothering night operator Black at the C. & O. depot in the West end of this city, but when they arrived the man had disappeared.

BALL CLUB MEETS

The Maysville Ball Club held a regular meeting last night and transacted considerable business of importance. The resignation of Mr. C. E. Dieterich, as secretary-treasurer, was received and accepted. The resignation of Manager Lee Dresel was also received and accepted. Mr. Dieterich will continue as secretary temporarily until the club elects his successor. Mr. James Frost was elected manager and president to succeed Mr. Dresel.

The change in management indicates that there will be changes in the line up, and it is to be hoped the boys will put up a good classy game of ball. Maysville has the players, and there is no reason why the fans will not support a good amateur team.

TIMOTHY O'CONNELL

Timothy O'Connell, aged 80, passed away at his home in East Sixth street this morning at an early hour. Mr. O'Connell was born in County Cork, Ireland, and came to this country at an early age. He has resided in this locality for years and he was a Civil War veteran, serving with the 183rd Ohio regiment throughout the war. He is survived by six children, five boys and one girl, John, Timothy, Joseph, Daniel and William, and Mrs. James Maley, all of this vicinity. The funeral will take place from St. Patrick Church on Thursday morning at 9 o'clock. Burial in Washington Catholic cemetery.

BALL GAME FOR BENEFIT OF HEALTH LEAGUE AUTO

The druggists and physicians have organized base ball teams which will play a game of ball some time next week for the benefit of the fund for the automobile for the Health League.

Mr. Wm. Dern is captain of the druggists and Dr. A. R. Quigley is captain of the physicians. The date of the game will be announced later and a good game is promised. Every one is urged to go to this game and help the worthy cause.

Mr. Abe Galanty, who has been attending school at State University, Lexington, has returned home to spend his summer vacation with his parents, Mr. and Mrs. Meyer Galanty, of West Second street.

Mrs. Lee Cox, of Portsmouth, Ohio, was called here by the illness of her daughter, Mrs. John Farwick, who was operated upon at Hayswood Hospital Saturday.

The Ladies Aid Society of the First Baptist Church will meet in the Sunday School room at 2:30 Wednesday afternoon. All members urged to be present.

Miss May Harrop, of Latonia, is spending a few days with Miss Emma Nolin.

GOVERNMENTAL FINANCES

When the Democratic party is out of power it denounces Republican extravagances, and demands a more economical administration of the Federal government. When it is in power it expends the public money like a drunken sailor.

A recent report from the treasury shows that the available working capital of the government had fallen from \$139,652,960 on the first of July, 1914, to \$42,759,689 on March second, 1915. An excess of expenditure over revenue of more than Ninety Six Million Dollars in eight months. In other words the treasury department is running behind at the rate of more than Twelve Million Dollars per month, and when the balance on hand shall have been exhausted which, at this rate, will come to pass in less than four months from March second, or about the middle of the present month, a bad issue or some other means of raising money will be inevitable.

How futile it will be to create new governmental agitations, and to what avail where the expenditures are already so far in excess of the revenue which is to be still further reduced, by more than Fifty Million Dollars per annum, when sugar takes its place among those other commodities that are honored with positions upon the free list.

It may be said that the administration is not altogether to be censured for this as public expenditures are in the hands of various committees of Congress, each working for its own interest and ignoring the others, but neither can the administration be held blameless, for those committees are administration committees and most certainly the tariff act, which is as much responsible for the muddled condition of the national finances as any other one thing, is an administration measure.

This state of affairs can not be charged back to the people on the ground that they elected a Democratic administration upon a platform containing among other provisions almost as disastrous, the fatal tariff reduction plank, for it must be remembered that at the last election there was a division in the Republican party which has since been reunited, and that while the majority voted against these deplorable conditions, the vote was divided between two candidates thus casting the

election to the minority party which can not shift the responsibility for conditions arising directly as a result of its doings.

It is hardly to be supposed that the incoming congress will undo all of the acts of its predecessors, and yet without such undoing the government finances must grow worse from month to month.

There is but one complete and positive cure for these conditions, and that is to restore the Republican party to complete power. The remedy which will effect that cure will be administered by the people at the coming election.

We know one man who doesn't repeat the cute things his baby says, and that's due entirely to the fact that he hasn't got a baby.

The person who is reduced to the extremity of claiming that the world owes him a living usually is overdrawn in his account.

A girl can sometimes forgive a man for having flirted with her; it's for stopping flirting before she does that she stores up resentment against him.

In this country the exercise of the right of free speech often results in a lot of fool talk.

Providence is blamed for a lot of things that men ought to be punished for.

If the joke is a good one it is better to laugh last than not at all. There is nothing more humiliating than to be unable to see the point of a good joke.

This world is full of strutters. Many are struggling to support an automobile, and now we see a lot of people struggling to make automobiles support them.

A Quibble.

John B. Stanchfield, the noted lawyer, was discussing in an interview in New York the case of his client, Harry Thaw.

"But objections like that," said Mr. Stanchfield, "are mere quibbles. They have no real bearing on the case. Like the farmer's wife, they only confuse and embroil matters."

"A sickly farmer said to his husky wife one spring morning:

"I see by the papers that a woman down Paint Rock way goes out every morning and hoes with her husband."

"Well, what of it?" the wife answered. "She could do it easily enough if he's as thin as you are. I've often thought of using you to peel potatoes with."

\$100 Reward. \$100.

The readers of this paper will be pleased to learn that there is a disease known as Catarrh, which is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars as a reward to anyone that fails to cure. Send for it at once.

WHY MEN EAT MORE FOOD
THAN WOMEN

That men eat 5 or 6 per cent.

more than women—not because they are gluttons, but because they actually require that much

more nourishment—appears as a

result of an investigation made in the nutrition laboratory of the

Carnegie Institute at Washington, by Francis G. Benedict and L. E. Eames. The reason for the

discrepancy seems to be that

women have a smaller proportion

of active tissue than men of the

same weight, and more inactive

material, such as fat. The investi-

gation disclosed that the average

woman generates only 1,355 heat

units in the twenty-four hours, as

against 1,628 produced by the

man, or about 2 per cent. more for

the latter per pound of body

weight. When groups were com-

pared, after careful selection of

individuals of nearly the same

height and weight, the men were

found to produce about 12 per

cent. more heat than women.

TALKING BY WIRELESS TELEPHONE FROM TRAIN

What is undoubtedly the first actual application of wireless telephony to permanent and practical use is the installation of wireless outfits on the most important overland trains of the Lackawanna railroad. The apparatus was designed by Lee De Forest, of New York.

The greatest distance over which a message has yet been received was twenty-six miles. This was a business message telephoned when the train was running through the town of Lounsbury and received at Binghamton twenty-six miles away. Messages are constantly sent and received over distances ranging from one to ten miles.

L. J. Foley, superintendent of the railroad's telegraph and telephone service, says that as soon as heavier equipment shall have been installed there will be no difficulty in transmitting messages fifty miles.

ASTOR BABY'S EXPENSES

Are \$30,000 a Year Now—Mother files Accounting for Heir of John Jacob Astor.

New York, June 5—John Jacob Astor, now in his third year, the posthumous child of Col. John Jacob Astor, who perished when the Titanic went down, has been living at the rate of approximately \$30,000 a year, according to the accounting filed today with the surrogate by his mother, Mrs. Foster Astor, who is his guardian.

The court allowed Mrs. Astor \$60,000 for the maintenance of the little boy for three years, or \$20,000 a year. In the accounting filed today, Mrs. Astor asserts that she has spent \$23,639 of her own money in addition for his maintenance.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment; the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get well alone.

Doan's Kidney Pills have won the praise of thousands of women. They are endorsed at home—Read this May-

sicle woman's convincing statement: Mrs. Dora Mefford, Maysville, Ky., says: "I had been feeling poorly for some time, before I knew that my kidneys were at fault. I was nervous and dizzy and my back and head ached. I rested poorly and mornings I was all tired out. I read in a local paper how a neighbor had been cured of kidney trouble by Doan's Kidney Pills. I used them and before long I was a great deal better. I was able to sleep well and they improved my health."

Prie 50¢, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mefford had. Foster-Milburn Co., Props. Buffalo, N. Y.

Mrs. Astor asserts that she is informed that the income on the trust fund left by Col. Astor for the child is approximately \$140,000, and upon this assumption contends that it was Col. Astor's wish that his son be amply provided for. Of this income she points out, she has been allowed only \$60,000 for three years. The money she has spent from her own funds in addition to the \$20,000 was expended from the date of the child's birth to December 31, 1914.

CROP REPORT ISSUED JUNE 5, 1915

The reports of the various correspondents throughout the state show that the April drought continued into the early part of May, but the most of May has been cold with an excessive rain fall. Storms and cloudbursts have been frequent and in places great damage has occurred. The wheat crop shows a condition of 78 per cent. Much of the wheat is thin on the ground, however, and no unusual crop can be expected. The oats crop shows a condition of 85 per cent. This crop did not get a good start owing to the dry weather, but bids to be more improved than the wheat crop. The acreage of corn is given at 101 per cent, with a condition of 29 per cent; condition of Barley is given at 82 per cent, and condition of rye at 86 per cent. The acreage of Irish potatoes is 98 per cent, with a condition of 97 per cent. The inferior quality of the tobacco plants used and the dry weather damaging the beds have retarded the plant growth. The condition of the Burley tobacco is given at 75 per cent, and that of the Dark tobacco at 79 per cent. Pastures have improved very materially, their condition being given as follows: Bluegrass 84 per cent, orchard grass 89 per cent, clover 84 per cent, and alfalfa 95 per cent. Garden conditions are good showing a condition of 95

per cent. The condition of hemp has greatly improved, but the stand is thin on the ground. Acreage of hemp is given at 96 per cent, and condition 87 per cent. The condition of live stock is good showing as follows: Horses 93 per cent, cattle 93 per cent, sheep 92 per cent and hogs 91 per cent.

The splendid pastures are resulting in an extra quality of spring lambs. Fruits show a condition as follows: Apples 79 per cent, peaches 74 per cent, plums 84 per cent, and blackberries 89 per cent.

Heavy rains and cold damp weather have had a bad effect upon the young poultry of the state, and poultry conditions are given as follows: Chickens at 93 per cent, ducks 91 per cent, turkeys 89 per cent. Not a great amount of cow peas and soy beans have been planted. The condition of cow peas is given at 90 per cent and soy beans at 91 per cent. The ground as a rule has been too wet to work for the last half of May. Some of the corn is not yet planted. Ample time remains to plant cow peas and soy beans, and even corn planted at this time will probably mature satisfactorily.

Taken as a whole conditions have improved during the month of May, but some localities have suffered heavy losses from the downpour of rain that usually comes in April. The streams have overflowed in but few cases and crops in the bottom lands are in good condition. With seasonable weather, Kentucky should produce splendid crops, as a whole, during the year 1915. A reasonably good start has been made.

J. W. NEWMAN,
Commissioner of Agriculture.

They Look Alike

But—

The average cup of coffee contains about 2½ grains of caffeine, a subtle, poisonous drug.

Caffeine is cumulative, and day by day pounds away at nerves, heart and other organs, finally showing in biliousness, headache, sleeplessness, heart flutter, nervous prostration, etc.

A cup of

INSTANT POSTUM

has a flavour similar to mild, high-grade Java, but contains no coffee, caffeine, nor other harmful substance.

Postum—made of whole wheat, roasted with a little wholesome molasses—is a pure food-drink decidedly American, and is taking the place of coffee with thousands of people who appreciate health and comfort.

Postum comes in two forms:

Postum Cereal—the original form—requires thorough boiling to bring out its flavour and food value. 15c and 25c packages.

Instant Postum—the soluble form—is prepared in the cup **Instantly** with hot water. 30c and 50c tins. Both kinds are equally delicious—cost per cup about the same—sold by grocers everywhere.

"There's a Reason" for POSTUM

Correspondence

Springdale

LOVES OF GREAT AMERICANS.
Johnston Blakeley's Romance

A lonely little boy was sent, all by himself, from North Carolina to New York. This was in 1794. The journey in those days was far longer and more perilous than would be a trip to South America today.

The boy was Johnston Blakeley.

His father, a merchant, had left Ireland when the son was only two.

Since then the family had lived in Wilmington, N. C.

When Johnston was twelve—a nervous,

thin, shy little fellow—his father

for some reason decided to send

him to New York to be educated.

So, like a bale of goods, the sickly

youngster was shipped North

to one of his father's colleagues,

a fellow merchant named Hooper.

The lad became member of Mr.

Hooper's New York household,

going daily to school in Brooklyn.

He was desperately homesick.

The other boys laughed at his Southern

accent and his old-fashioned

ways. His one solace during the

five miserable years of exile was

the close friendship of Mr.

Hooper's only daughter, Jane, a

child a few months younger than

Blakeley.

Jane and the Southern boy

were both lonely, both different

from their schoolmates. Instinctively they were drawn together

by their mutual loneliness.

And as the years went on the

childish friendship merged into a

boy and girl love affair. Mr.

Hooper was not averse to the

match. For he had grown fond of

the boy, and Blakeley's father

was well to do.

But just before Blakeley was

eighteen the incipient romance

was cut short by his return to

North Carolina, whither his father

summoned him to study law.

He bade farewell to Jane, promising

to come back as soon as he

should have the right to claim her.

Then he went South—to trouble.

He had scarce begun his law

course when his father died. And

the supposedly rich merchant died insolvent.

Penniless and without prospects, Blakeley left the study of law and became a midshipman in the navy. His chances of claiming Jane Hooper for a wife seemed very remote.

We had not much of a navy in

those days, nor did the service of

offer much hope of advancement.

Yet young Blakeley plucked

away doggedly at his chosen ca-

reer. By 1807—seven years after

he had joined the navy—he was a

lieutenant. In 1812 war broke out

between the United States and

Great Britain, a war to be fought

largely on sea, and offering quick

promotion to brave naval officers.

Blakeley rose to the rank of

lieutenant commander. His pay

was now sufficient for two to live

on in strict economy. And at the

first opportunity he went to New

York, where Jane still loyally awaited him. There he and she

were married in December, 1813,

after an engagement of fourteen

years.

The honeymoon was brief.

Blakeley, who had already won

fame during the first two years of

the war, was put in command of

the war sloop Wasp and ordered

again into active service. For the

next few months he and his ship

were the wonder of two continents.

One British man-of-war was

fought and captured.

From an obscure sub-officer

Blakeley sprang within a year

into a national hero. Then, in the

autumn of 1814, he ranged the

southern Atlantic in search of the

enemy. A ship that he captured

in late September came into

Savannah harbor with news of

him. Another vessel, on October 9,

sighted the Wasp under full

sail.

And from that moment—a cen-

tury ago—nothing was ever heard

of Blakeley nor of the Wasp nor

of any of the crew. They vanished

leaving no clue to their fate.

Receiving Milk at the Home.

The expression "a bottle of

clean, cold, unadulterated milk"

describes the kind of milk which

should be delivered to the home.

The method of dipping milk from

large cans and pouring it into the

customer's receptacle in the street

with all the incident exposure to

the air, not always the cleanest,

is a bad practice. Drawing milk

from the faucet of a retailer's

can is almost as bad as dipping

milk, although the milk is not ex-

posed to the air as long as by the dipping process. Besides the in-

sanitary part of this method, some

consumers, unless the milk is

kept well agitated, are likely to

receive less than their proportion

of cream. The custom of setting

out at night an uncovered vessel

which collects thousands of bac-

teria from the street dust before

the milk is put into it, is obvious-

ly very insanitary, and yet it is

practiced to a large extent. If

milk is to be received in a bowl or

pail by the consumer, it is worth

while to have it delivered personally to some member of the family,

or if the receptacle is to be placed

in waiting for the milk de-

liver, it should be covered with a

plate, or better still, a glass pre-

serving jar may be used, in which

nothing but milk is put. The jars

with the glass tops are preferable,

no rubber bands should be used.

Direct sunlight on the bottle of

milk warms it rapidly, and in-

creases the bacterial content.

Milk which is delivered very

early in the morning, say at 4 a. m., and

remains out-of-doors until 9 or

GRADUATING Suits

Now on Display at Geo. H. Frank & Co.'s.

All the latest cuts and sizes for the young man who desires to be correctly dressed for commencement. Call in early and have your size laid aside.

Prices \$15.00, \$18.00, \$20.00 and \$25.00.

KILLED THE LEVY

Anti-Administration Forces In Council Refuse to Accept the 30 Cents Raise in Taxes —Want Them Reduced to \$1.25

At the regular monthly meeting of the City Dads last night there was a full hand in Council and full house of spectators, with you Lee presiding. The Mayor reported that he had voted \$79.37 on licenses during the last month.

Chairman Phister reported collections.

Curran's report was as follows:

Dance last month....\$1,935.00
Receipts.....2,045.90

Total.....\$3,980.90

Expenditures.....3,929.76

Leaving balance....\$51.14

The Board of Education reported the estimated receipts and expenditures of the Public Schools for the year 1915-16 as follows:

Receipts.....\$8,652
Expenditures.....29,837

Bonds.....6,000

Interest.....3,120

Total.....\$37,609

A communication, signed by "The Fleming Pike Improvement Committee," was read, as follows:

"What would YOU do if you had paid \$58.20 to oil your street and the Maysville Water Company dug it up the next day and washed all the oil off and made the gutter even with the pavement?" It was referred to the Proposition and Grievance Committee with power to act.

The Claims and Accounts Committee reported as follows:

Alms and Almshouse....\$319.42
Pensions.....76.00

Public Library.....25.00

Mason County Health

League.....25.00

Mission Home.....25.00

Colored School Mission.....6.25

Gas and Electricity.....72.19

Boarding and guarding

city prisoners.....196.40

Miscellaneous.....35.43

Salaries.....279.11

Police.....447.86

Brick streets.....134.50

Greenwood Library Fund.....47.43

Internal Improvement.....604.07

Fire Department.....410.47

Council salaries.....159.00

Total.....\$3,514.65

Building permits were granted as follows:

I. F. Chanslor, brick bungalow, corner Lexington and Second Street, Sixth Ward.

J. C. Burwell, bath room over back porch at residence on East Second street, Sixth Ward.

Jennie and Laura Potter, one-story kitchen with metal roof on Walnut street, Fifth Ward.

The Fire Department reported that it had responded to one

alarm and one still alarm during the past month.

Engineer Glazier was allowed \$145 for extra expenses and Harry Otto \$35 for the same.

The Board of Health reported the sewers emptying into the Ohio above the water works pumping station a menace to the city's health, recommended their removal but not until the city had made provision for ample sewers for these people to tap into. This report was received and concurred in.

The bid of George H. Traxel to put in a standpipe at the Alms-house was \$74, and Larry Langefels, \$96. They were referred to the Fire Committee, which was given power to make the contract.

And right here is where the administration forces got a severe jolt. The ordinance fixing the tax levy for 1915 at \$1.55 was read.

When the vote to receive it was taken the result was a tie.

Members Cullen, Crowell, Gantley, Fleming, Easton and Hunsicker voting no, and Members Keith, Everett, Foster, Greenlee, Arn and Hendrickson voting yes. Mayor Lee broke the tie by voting to receive the ordinance. Upon a motion to suspend the rules and place the ordinance on its passage which required a two-thirds vote, the result was 6 to 6, and the Mayor declared the motion lost.

As there must be some means of getting money the Ways and Means Committee was given a week to cut expenses and bring the levy down to \$1.25, where the antis say it should be.

The Gas Company presented to Council its check for \$1,291.31,

for rebate for the period from June 1914 to June, 1915.

An ordinance was read permitting the Street Railway Company to remove their tracks from the west side of Bridge street to the center of that street, and from the north side of East Second street to the center of the street, was read and received by a vote of 8 to 4. Upon a motion to suspend the rules it carried by the same vote. Motion to adopt this ordinance carried.

The proposition of the Street Railway Company was adopted by a vote of 8 to 4. It is as follows:

To the Members of the City Council, Maysville:

The ordinance authorizing the construction of a brick street in Bridge and East Second streets, from the corner of Third street and Bridge street in the Fourth Ward, to Carmel street, in the Sixth Ward, provides that the six inch bed of concrete beneath the tracks of the Maysville Street Railroad and Transfer Company, extending out on each side of the ties twelve inches, is to be paid for by said company, and the plans as prepared by the City's Engineer contemplate the removal of the tracks in the Sixth Ward from the place they now occupy on the north side of the street to the center thereof, and also the removal of the tracks on Bridge street in the Fourth Ward to the center of the street, and the removal of the tracks at certain places in the Fifth Ward.

The Company does not admit that it can be required to do either of these things, and the expense to which it will be put is considerable, at least Twelve Thousand Dollars.

The Company, however, is anxious to co-operate with the city in the proposed improvement, and will agree to the requirements of the ordinance and the proposed changes in location of tracks as shown by the plans, provided:

1st—The sand and gravel that has been put in under the street car tracks by the Company belongs to it, and so much thereof as is merchantable and suitable in the judgment of the City's Engineer, for the purpose of constructing the street in accordance

with the plans, provided:

Member Glazier asked that the pond in the rear of the Government building be oiled to get rid of the mosquitoes and then to place lime there. It will be attended to. Mr. Smith will attend to the dumps.

The bids for the construction of brick streets were opened and as the bids were made on two kinds of filler Council voted to accept the tar filler and crushed concrete. The contracts allowed were as follows. Farrow & Co. of this city, and Ruh & Schmidt of Covington, being the successful ones:

Street—Farrow & Co. Price \$6,126.30.

Market street—Farrow & Co. Price \$3,362.00.

Third street—Farrow & Co. Price \$1,364.80.

Bridge street—Ruh & Schmidt & Co. Price \$4,106.00.

Second street from Limestone street to Bridge street—Ruh & Schmidt & Co. Price \$10,866.00.

COURT DAY A BIG SUCCESS

County Court day Monday was one of the most successful held in this city for some time. Much coin of the realm was in circulation, and several fancy prices were paid for live stock of which their was an abundance.

RIVER NEWS

Gauge 19.6 feet and falling. Steamer Tacoma up for Pomeroy today.

Steamer Greendale down from Pomeroy today.

EUCHRE

Ladies Euchre Club will entertain at Eagles' Hall tonight. You are invited.

Mr. Henry McElanahan, of Cincinnati, Chief Engineer of the steamer City of Louisville, is in this city at the bedside of his brother, C. W. McElanahan "Kinney Mae," of this city, who is very ill, at his home in West Third street.

The Limestone bridge proposition came up and the bridge contractor stated that it would cost \$1,500 to repair the structure. Laid over to the July meeting.

Member Easton called attention to the small drain on East South street, and moved that something be done to keep the water from overflowing in the Second Ward. It will be attended to.

He also called attention to the sewer on South street, between Market and Limestone. The tarpaulin street on West Third street was reported in bad condition by Mr. Easton.

Member Glazier asked that the pond in the rear of the Government building be oiled to get rid of the mosquitoes and then to place lime there. It will be attended to. Mr. Smith will attend to the dumps.

The bids for the construction of brick streets were opened and as the bids were made on two kinds of filler Council voted to accept the tar filler and crushed concrete. The contracts allowed were as follows. Farrow & Co. of this city, and Ruh & Schmidt of Covington, being the successful ones:
